

Oklahoma State Department of Health HIPAA Privacy Notice

This notice describes how medical information about you may be used and disclosed and how you can get access to this information. Please review it carefully.

It is the policy of the Oklahoma State Department of Health (OSDH) to keep all of your medical and personal information confidential. We will only use or disclose your information for the following reasons:

Treatment: We will share your medical information with other medical providers who are involved in your care (including hospitals and clinics), to refer you for treatment, and to coordinate your care with others. For instance, if you are getting maternity services from us, we will share your Protected Health Information (PHI) with the doctor who delivers your baby. We also participate in Electronic Health Information Exchanges, which may make your PHI available statewide and nationwide. In order to provide you with a continuum of health care services across program providers, OSDH also participates in a Master Person Index (MPI). You may at any time request in writing to be removed from the index. We will only authorize this information to be shared for your treatment purposes. For example, if you are in another city or state, it may be possible to share treatment information with a doctor who needs that information. If we use or disclose your psychotherapy notes, OSDH must obtain your written permission, unless the use is for treatment.

Payment: We may use and disclose PHI when it is needed to receive payment for services provided to you. For example, if you have Medicaid benefits or private insurance, we will release the minimum information necessary for the Medicaid program to pay us. OSDH utilizes the services of a health care clearing house to process payment for applicable services.

Health Care Operations: We will use and disclose PHI when it is needed to make sure we are providing you with good service. For instance, we may review your records in order to make certain quality service was given. We may also share PHI to a health plan for the plan's Health Plan Employer Data and Information Set (HEDIS). For example, your insurance company may want to know if you have had immunizations in an effort to make improvements in their service and quality of care.

OSDH may contact you to provide appointment reminders. If you wish to receive communication through text or email, you will be given the opportunity to opt-in. If you select this primary form of communication, please remember to keep your information updated at OSDH.
